

AIS SCHOOL VISION

For our students to become confident, capable and socially aware global citizens who contribute meaningfully to the communities in which they choose to live and work.

Jakarta Bytes, 24th April 2026

Principal's Highlights

A huge thank you for the community support this week, particularly from our PnF executive and members of our Indonesian educators for ANZAC day commemorations and Kartini Day celebrations. A central part of any learning community is to pause on important events, either to celebrate or just remember the sacrifices of others. We had both this week, so we have had a very big week of learning in and out of the classroom.

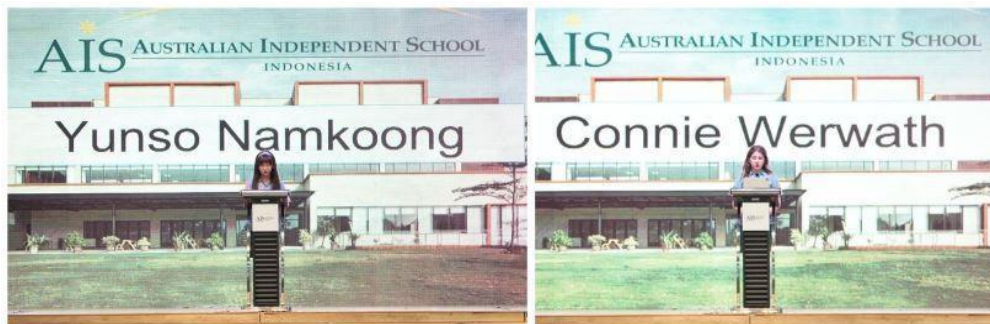

Board Announcement – School Fees 2027

Please see a notice from our AIS Indonesia Board:

The AIS Indonesia board has decided to wait until at least July 2026 to make a decision regarding changes to school fees for the 2027 school year. The board has adopted a 'wait and see' approach to the current geopolitical climate to appraise its effect on Indonesia's economy and the International School market.
